May 1964

Now, we can say that spring is here, as wild flowers blanket the forest floor and the trees are donning their green finery. Winds from the east kept the first part of the month rather cool and wet, but all of that is soon forgotten as the Island blossoms out to start the 1964 season.

WE RECEIVED the following poem, but we do not know the author or title. We thought, perhaps, you would enjoy it, too.

"If you want to live in the kind of a town,
Like the kind of a town you like,
You needn't slip your clothes in a grip
And start on a long, long hike."

"You'll only find what you left behind,
For there's nothing that's really new;
It's a knock at yourself when you knock your town,
It isn't your town - it's you."

"Real towns are not made by people afraid
Lest somebody else gets ahead;
When everyone works and nobody shirks,
You raise a town from the dead."

"And if you make your personal stake,
Your neighbor can make one, too;
Your town will be what you want to see --
It isn't your town - it's you!"

Thomas Landers officiating. Parents of the couple are Mr. and Mrs. Glenn Taylor, 865 Prospect Ave. NE, Grand Rapids, and Capt. and Mrs. Lawrence McDonough of St. James. The bride, the former Kay Ellen Taylor, entered the sanctuary attired in a floor length gown of silk organza accented by embroidered alencon lace appliques repeated in the short sleeves and chapel train. A Queen Anne crown secured her waist length veil of embroidered English illusion and she carried a cascade arrangement of white carnations and hyacinths. Miss Suzanne VonDestinon was the maid of honor and Mrs. Robert Gleason and Miss Loretta LaFreniere of Lansing were bridesmaids. They wore pink organza frocks with rose patterned chiffli embroidery, matching bows with coiffant veils on their hair and carried pink and white carnations and white daisies. Seating the guests were Terry Taylor, of Traverse City, the bride's brother, and Carl Gahlmen.

EARLY BOATER: The first boat to tie up at the Yacht Dock this year, was Tom Loeb's "Tim-Tom", from Charlevoix. Accompanying Tom was his son and Art Ranger. If our memory serves us correctly, Tom was the first in last year, too. Needless to say, there was plenty of room at the dock.

HIGH MASS: A High Mass will be celebrated at Holy Cross Church, Beaver Island, on May 31st in Thanksgiving for relatives, friends and all who helped make my recovery possible, cards, letters, flowers and Spiritual Bouquets. A special thank you to Very Rev. Father Jerome McCann, O.P., who flew from New York to be with me. Eva McDonough

FROM OUR REPORTER IN INDIA: Ellen Hill of East Lansing, who practiced her swimming during several summers on Beaver Island, produced and directed the AQUA FOLLIES, a synchronized swimming show performed at the National Sports Club of India in New Delhi in April. After a year in the ice show at the Conrad Hilton Hotel in Chicago, Ellen joined her parents, Dr. and Mrs. Walker H. Hill, last fall in India, where her father is one of a group assigned by Columbia University to serve as educational advisers to the national government.

Her sister, Mary Emory, who traveled with Ellen to India, directed part of the show and performed in some of the acts. The following is a review of the show that appeared in the Times of India: "The U.S. Ambassador, Mr. Chester Bowles, his wife, and some invitees were the privileged few who witnessed a charming display of aquatics at a press preview of the Aqua Follies at the NSCI pool on Thursday evening. It was fun, frolic, romance and acrobatics in water. Girls looked like ethereal nymphs in their colourful, shiny bathing costumes. The ease with which they achieved various geometrical formations in the flood-lit
pool bespoke the hard work put in by the Director of the Follies, Miss Ellen Hill.
The solo item, "Regal Splendour", by Miss Hill had a touch of aquatic mastery.
The performance ended on a patriotic note when the participants formed the National Flag through the entire length of the pool to the strains of the National Anthem.
Very fine reviews of the show also appeared in the Indian Express, The Patriot and The Statesman.

GAME NEWS: The Smelt run, like last year, was a real short one. They ran heavy for about three nights and stopped. Suckers are running at Cables Creek, however, so there is still fun to be had in that department.

The opening of the Trout season saw a very good turn out at Fox Lake. Over all, the fishing is excellent, though there are times in the day when they just aren't interested in being caught. The bait this year, so far, has been mostly worms. Last year the largest Trout caught, weighed just a pound. So far this year the largest reported was 16", and already several over a pound have been caught. I should add, however, that membership in the Beaver Island Game Club is necessary before a person can be eligible for a prize of $5.00 for the largest Trout caught during the season. Membership in the Game Club is $1.00.

Rogers Carlisle tells us of being on Fox Lake when the Brook Trout decided to feed. In 15 minutes, he had his limit. Four successive casts caught four Trout. The five Brook Trout weighed 3 lbs., 11 oz. Much bigger trout have been caught, one was 16" long and Rogers heard of one 18" long, but didn't see it.

Reports of turkeys being seen in several parts of the Island let us to believe they are doing alright.

MUSHROOM'S ARE AT IT: The spring rains have brought the Island's crop of mushrooms up for picking. The experts, like Milt Bennett and Karl Kuebler, can find them by the bushel. In the years they have been doing this, none has been able to find out exactly where their spots are. Mushrooming is like fishing and favorite spots are carefully kept secret. However, this year they are so plentiful that even we novices are having no trouble finding them.
Anyone taking up this sport should have a good idea just what he is looking for because an error could make someone mighty sick and once in a while death is the end result of not knowing. This sounds like a rather ticklish past time but there is absolutely no danger if a person does a little research on the subject. A new book is out now to prevent any errors in determining mushrooms types. Also, you would be amazed at how many different varieties are good to eat. Anyone interested in this sport should have a copy of "The Mushroom Hunter's Field Guide", written by Alexander H. Smith. This is a real fine book and fully illustrated. It is available at the Beaver Island Museum or by contacting Mr. A. J. Roy, at St. James.

MORE ISLAND FACE LIFTING: Several changes will be noted by the season's visitors this year. The new Erin Motel, near the dock, is nearing completion as is Wojan's addition to their Harbor View Tourist Court. Dr. and Mrs. Haynes have completely redo the former Pratt residence, next to the Post Office. New siding and roof has made a tremendous difference.
Central Michigan University has begun construction of a 24' by 48' laboratory building, to be in use this summer.

MOVER'S: Bud and Skip McDonough will be moving back into the city of St. James soon. They are purchasing Dr. Luton's home.

Bill Wagner, the new Conservation Officer, and his wife, Marge, are purchasing the Walter Lyon's residence, and will soon be settled down.

HOUSE WARMING: To get the season off to a rearing start and also, a chance to celebrate Mother's Day, all at once, Carl Baber, the new Manager of the Beaver Lodge, swung the doors open on the season on the 9th of May. We wish Carl and Connie a very successful season and will do our best to help get it started.

On April 23rd, the Beaver Island Civic Association sponsored a cake and coffee 'get acquainted' party for the Carl Babers, at the Circle M. Lodge.

PARENT TEACHERS ASSOCIATION: The regular Parent Teachers Association meeting was held on Sunday afternoon, April 19th, at the Beaver Island Community School. After the business at hand was discussed, the subject of raising funds for an Activity Program for the pupils was discussed. The program will start in the fall. Father Louis has agreed to donate the use of the Parish Hall for use in the program. Equipment must be purchased to provide several activities for the children.

Drama Night: On Friday night, May 8th, the Beaver Island School put on a program that deserves special mention. The one act play "Submerged" was presented by the Junior and Sophomore boys. "Indian Braves", an Indian
dance was put on by the boys of grades 1, 2, 3, 4. "Surrender At Appomattox", a short play written and acted by the 5, 6, 7 and 8th grade boys. "Mixed Up Party", written and produced by the 5th through 8th grade girl "Roughly Speaking", a one act play, was presented by the 9th and 10th graders. The "Virginia Reel" danced by the boys and girls from 1st to 5th grades, ended the children's presentation. The entire program was well planned and presented, reflecting the effort put forth by both the students and Sister's. Though the attendance was good, we only wish there more could have seen it.
