c. Finance Committee
   1. Mural Conservation
      a. The board has previously authorized to move the mural off the island. We have a quote of $2240 to move the mural one-way. We have $1140 dedicated to moving the mural off the island, at this time. The remaining cost for movement is $1300. The capital committee has agreed to give up some funds for the movement and restoration, as this will be one of the main exhibits in the new museum. Lori and Pasqua will continue to work on grant funding for both restoration and exhibit funding.
      b. Angel made a motion to use capital funds to pay for the movement of the mural off the island. Alan seconded the motion. MOTION RESCINDED
      c. Angel made a motion that we move the mural. Angel pledges approximately $400, to cover the remaining cost of transport off the island. The remaining $900
revenues came from the Fish Tasting Event. John and Angel have agreed to split the cost of transporting the mural back to the island. We have been given a cap of $50,000 on the restoration of the mural. We will use $25,000 from the capital fund at this time to kick off the restoration project. In the meantime, Lori and Pasqua will continue to work on funding. There will be progress reports, with cost updates, as the restoration goes on, so we can continue to plan for funding. Tracy seconded the motion. There were 11 votes for yes, and 1 vote for no.

i. There are some concerns about the cost of transportation. Due to the nature of the artwork, it needs to be transported very carefully.

ii. Discussion was held regarding whether we should spend capital funds on the restoration.

iii. The painting has been exposed to temperature and moisture changes. It should be moved once and be taken care of, so further damage is prevented.

iv. Discussion occurred regarding the original $10,000 moving quote, which was not selected, and the ability of board members/volunteers to move the mural to the conservator. It was concluded that an insured professional mover who charges a reasonable amount ($2,440) was appropriate.

v. Angel has agreed to donate the remaining funds to transport the mural off Beaver Island, and Angel and John will split the cost for transport back to Beaver Island.

vi. Alan suggested that at there should be a point that the conservator should be able to offer an update regarding the stage of work, the
remaining work to be completed, and the cost for this completion.

2. Conflict of Interest Form (Handout/to be returned)

d. Adjournment

   a. Mike made a motion to adjourn the meeting. Maeve seconded the motion. The meeting was adjourned at 8:50 pm.
